

DSLR Quick Photo Tips

Waterfalls Tips:

1. Switch to TV Mode
2. Set to 1/30 for slower set to either 1/15 or 1/8
3. If F-number flashes, is out of balance, select a slightly quicker shutter speed
4. For Filters use a slightly higher ISO
5. For zooming use faster shutter
6. Set camera back to Manual/Program mode

Landscape Tips:

1. Switch to AV Mode
2. Set to a high F number either F11 or F16 to F22
3. Suggest F8 for best result, Landscape use F16
4. Panoramic use lock for AF/AE modes, overlap by 25%
5. Set camera back to Manual/Program mode

Sunset Tips:

1. Switch to "P" Program Mode
2. Press the exposure compensation button (labeled Plus/Minus)
3. Set compensation to negative value (-1.5, -2.0)
4. Check Photo and set back to "0" or zero
5. Set camera back to Manual/Program mode

Night Tips:

1. Switch to "M" Manual Mode
2. Set to a small F number either F1 or F2
3. Use a self timer and tripod
4. Switch off Anti-Stabilization
5. Use a low ISO number
6. Dark conditions switch lens to manual, or increase ISO number
7. Set camera back to Manual/Program mode
